Data acc. to DIN 7805/4, WdK-Guidelines 134/2, 142/2, 143/14, 143/25
 1) Load index single/dual wheel fitment and speed symbol
 2) TT = Tube Type, TL = Tubeless
 3) Fuel efficiency
 4) Wet grip
 5) External rolling noise (db)
 6) For tire pressures of 8.0 bar (116 psi) or greater, use valve slit cover plate

Goods

Conti Hybrid HS3

Versatility, mile after mile after mile.

GENERATION 3. DRIVEN BY YOUR NEEDS.

Conti Hybrid HS3

With the new Conti Hybrid HS3, you will steer your fleet in the right direction. The new steering axle tire demonstrates its great performance in high mileage capability and excellent fuel efficiency on both regional roads and motorways, making it ideal for mixed applications. Its versatility is rounded off by outstanding wet performance over lifetime, mile after mile after mile.

— Conti Hybrid HS3
— Compared to predecessor 315/80 R 22.5

Product highlights

- › Plus Volume Pattern: narrowed groove widths result in increased pattern volume which improves wear resistance to guarantee high mileage performance
- › Rolling resistance sidewall compound: the polymers selected for the new rolling resistance compound provide more flexibility between the polymer chains. This results in reduced friction and therefore lower rolling resistance
- › Wet performance pocket sipes: a new siping technology with full-depth sipes enhances water displacement and improves wet performance over lifetime

Further technical features

- › Visual Alignment Indicator: all Hybrid steer axle tires (22.5) are provided with the Continental Visual Alignment Indicator (VAI™)
- › New contour: the new shape ensures better pressure distribution, providing more even wear for high mileage performance

LifeCycle inbuilt

Continental's premium casing, with Air-Keep inner liner, triangular belt and bead with steel cord chafer, guarantees high retreadability.

The new regrooving indicators make regrooving faster and easier. The Hybrid tire line is perfectly tailored to our ContiLifeCycle.

Regrooving recommendations
